

UNITED
CHEMICAL SERVICES

PREMIUM GUNWASH TDS

United Chemical Service's Premium Gunwash is a Custom thinner designed specifically for cleaning spray guns & other paint related equipment.

Please note that it is not recommended for use for thinning paint, please contact your sales representative for more information concerning thinning of paints.

For best results immerse your spray guns or other tooling allowing it to soak for 6-10 minutes.

One of the unique features of our recycled Premium Gunwash is that it has a good spike of ketones for cutting power.

The benefit of this you may ask yourself is simple, less time cleaning means more time painting, saving you money!

If you have any questions or concerns, please contact your sales representative for more information.

**At United Chemical Services
we are proud of our products & stand behind them.**

WE ARE ALWAYS AT YOUR SERVICE!
